

# Liberia's "Drivers of Growth" Study

LIBERIA, 07<sup>th</sup> September 2022

**Manuel D. Filipe Ph.D.**

# Content

- The “Drivers’ of growth” study in Liberia
  - Fundamentals and Scope
  - Applicability for Liberia
- Adjustment (“?”)
- Way forward

- The idea is to have a “Drivers of Growth Study” for Liberia
  - Similar to Rwanda’s one
  - To inform UNCT’s policy formulations
  
- A review of the Rwanda Study was done
  - Its comprehensive, extensive and complex (322 Page book)
  - Strategic and Long term policy document
  - Require extensive resources and time

# Adjustment(?)

- Driver's of change in Liberia with the aim of:
  - Identifying catalytic factors driving development outcomes in Liberia
  - Identifying entry points for policy actions
  - Explores linkages, complementarities and synergies
  - Provide applicable recommendations

- Give privilege to PAPD and SDGs
- Use Jeffrey Sachs' SDG transformational guide
- Explore Development acceleration approaches
- SDG acceleration instruments
- Explore similar experiences from alike contexts
- Intense use of Development literature
- etc.

- Extensive Desk review
- Selected Key subject matter specialist interviews
- Use of collaborative work
- Etc.

I THANK YOU  
very much!
